

Kathleen Scoggin

Watercolor Unwrapped

Nature inspires Kathleen's art, and in turn, her increased awareness from seeing through the artist's eye has deepened her appreciation for the out of doors. She has studied with many well-known watercolor artists. Kathleen's work has garnered a number of awards in juried shows in the Palm Springs area and through the San Diego Watercolor Society.

Her goal through this class is for watercolor artists to loosen up their paintings using the Wet into Wet method. We will explore painting in a loose juicy method and finish with negative painting. We will develop your subject matter with strong design and learn new twists to give your paintings the WOW factor. Subject choice is up to you, from abstract to more realistic.
