

### Art Journaling — Instructor Marcia Harris

Marcia will cover the basics of using drawings, watercolor and other media with writing for journaling in an easy, non-threatening way. She will help you see topics in the world around you, focusing on what is important to you or strikes your fancy. For instance, you could document your experiences at Art Camp 4 Grown-ups or other vacation get-aways.

All Materials are provided.

Marcia Harris has always written on her artwork and drawn pictures in her journals. Thus, watercolor journaling is her perfect medium.

As retired social worker, Marcia has studied art at Santa Monica Community College for years. She has attended Camp de Benneville Pines camps for many years and is always inspired by the scenery.

One of her most interesting projects is her watercolor journal with drawings of the homeless people (see below) she meets around town (Santa Monica). She always asks permission to draw them (unless they are asleep and unrecognizable).

Marcia has volunteered at Camp de Benneville Pines and you will see her artwork on the outside of Cabin 6 and hanging on the walls in Cabins 1 and 6. She also helped decorate the furniture in Cabin 1.
